

# Bindomatic 101 DFS

## Automated and Fast

The BINDOMATIC 101 DFS was the world's first automated thermal binder when launched, and is still the undisputed champion of its class. The capacity remains unrivalled with up to 30 documents bound per minute. No other competitive finishing solution in the same market place does even come close.

Thanks to its intuitive simplicity and ease of use, the BINDOMATIC 101 DFS is the ideal binding solution for office/corporate walk-up print stations, as well as volume demanding CRD or commercial print environments. It will always deliver a professional impression and it will deliver just that in the blink of an eye, without the need of a trained operator. It has never been easier to create a professionally bound document.

A professional impression.

# Quick, easy, and effective

The automatic features of the Bindomatic 101 DFS are not just convenient, they are something you can rely on – every time. For example, paper jogging, heating and cooling processes are all handled automatically. When you are in a hurry, it is nice to be able to flick through a document straight after binding, without having to wait for the cooling period needed with manually operated binders.

Creating  
a professional  
impression  
is easy!

1 Measure the set of papers in the spine width selector. The display will indicate the correct cover to be used.

2 Insert the set of paper into a Bindomatic cover with the correct spine width.

3 Load one or several documents as soon as the binder gives Green Light.

4 Remove the ready-bound document from the tray.

5 Congratulations – you have produced a professionally bound document in an instant!

## Technical Specifications - Bindomatic 101 DFS

<b>Document formats:</b>	A4
<b>Spine widths:</b>	1,5 to 15mm (1-150 sheets 80GSM)
<b>Load quantity:</b>	Load up to 30 documents per minute, depending on spine width.
<b>Energy consumption:</b>	230V, 50/60Hz, (warm-up/max 630W, binding operation 137W, power-save 7W)
<b>Dimensions:</b>	475 x 511 x 360mm
<b>Weight:</b>	27 kg

## Functional characteristics:

- Binding sequence fully automated, no buttons to press.
- Load document and paper jogging, binding/heating, cooling and document delivery is done automatically
- LED Display with Multiple Language selection
- Automated Spine Width Selector
- Automated Stand-by and Power-save mode
- Cover cooling system incorporated
- Document collect area with self-adjustable tray
- Auto-stop if tray filled up
